II. Course Outcomes

A. General Learning Outcomes

The student will:

1. Demonstrate assessment methods for motor impairments (ASCSD 2, 3, 4, 5)
2. Create and adapt teaching strategies for specific children (ASCSD 2, 3, 4, 5, 6, 7)
3. Select and demonstrate effective strategies, activities, and materials (including technology) for developing knowledge and skill across environments (ASCSD 3, 4, 5)
4. Interpret data to make changes in child growth (ASCSD 5)

B. Student Learning Outcomes

Upon completion of this course, the student will be able to:

1. Assess areas of fine and gross motor skills
2. Identify adaptations and accommodations for an individual student with motor impairments
3. Demonstrate appropriate teaching strategies for an individual with severe disabilities
4. Apply an instructional plan for students with motor impairments

III. Course Content

Students will apply theories of motor impairments, methods, techniques, and procedures learned throughout their coursework.

1. IEP/IFSPs
2. Student data collection and analysis
3. Teaching strategies
4. Adaptation and accommodation of curriculum
5. Time management
6. Student Portfolios

IV. Methods of Instruction

1. Supervised practice
2. Demonstration
3. Online webinars

V. Equipment and Materials

1. Computer projector with connections that work for MacBook (Apple)
2. Internet access
3. Library access
4. Chalk/chalkboard or Whiteboard/markers

VI. Suggested Methods of Evaluation

1. Presentations
2. Demonstration examinations
3. Reflective Journal
4. Projects
5. Portfolio

Letter grades will be assigned per CMI Grading System.
